

VERSA-DEK®

VERSA-DEK® 3.5LS | SUPER VERSA-DEK® 6.5LS

Versa-Dek® 3.5LS is a dovetail shaped roof deck profile that provides a clean, smooth lineal plank ceiling aesthetic while concealing sidelap and roofing fastener penetrations.

Super Versa-Dek® 6.5LS provides the same attractive appearance as Versa-Dek® 3.5LS with an additional 3" depth. The added depth enhances the strength of the shape providing impressive span and overhang capabilities making it ideally suited for long, open interior and exterior spaces.

Combine sound absorbing features and factory-applied coatings to give Versa-Dek® a desired finish ceiling aesthetic while meeting stringent acoustical and structural requirements.

VERSA-DEK®

VERSA-DEK® S | VERSA-DEK® LS

Versa-Dek® S and Versa-Dek® LS are dovetail shaped roof deck profiles that provide a clean, smooth lineal plank ceiling aesthetic while concealing sidelap and roofing fastener penetrations.

The strength of the shape provides impressive span and overhang capabilities while being ideally suited for open interior and exterior spaces.

Versa-Dek® S and LS are tailored to provide a desired finish ceiling aesthetic while meeting stringent acoustical and structural requirements.
